About King’s College:
King’s College is a centre of education, where students and staff live and work throughout the year. The young King Henry VI founded the ‘College of Our Lady and St Nicholas in Cambridge’ in 1441. Henry went to great lengths to ensure that his College, in particular the Chapel, would be without equal in Oxford and Cambridge.

Today the College is world renowned for its outstanding Choir and in particular the Festival of Nine Lessons and Carols which is broadcast from the Chapel on 24th December.

About Great St Mary’s:
Great St Mary’s has been at the heart of Cambridge for over 800 years and has been the University Church since 1209. Queen Elizabeth I herself made a famous visit to the church in 1564 and our carved oak roof was donated by Henry VII.

Great St Mary’s 114ft tower houses 12 bells whose chimes, the famous Cambridge Quarters, ring out across the city. They were the model for the ‘Westminster Chimes’ of Big Ben. Experience the beauty, peace and tranquillity of the church as you discover its fascinating history.
